Platform: IOS

TechStack: Swift

Role: member of core team

App Store-Link: <https://itunes.apple.com/in/app/rapmedix/id1260554224?mt=8>

Many people in need of health care neither have information about the tariff nor the opportunity to choose their medical service providers. This is in spite of the fact that 80% of the medical expenses are not covered by any reimbursement or insurance scheme and are borne by the patients. There is also a need to educate and empower the patients so that they can demand quality medical care.

Name : Rap-Medix-Partner

Platform: IOS

TechStack: Swift

Role: member of core team

App Store-Link: <https://itunes.apple.com/in/app/rapmedix-partner/id1290779373?mt=8>

This app is related to doctors to confirm the appointment and availability of the selected doctor. This is largely due to the huge gap between demand and supply. There is an urgent need to build capacity in our health care systems in all aspects i.e. availability, accessibility, affordability and finally on quality patient care. Many people in need of health care neither have information about the tariff nor the opportunity to choose their medical service providers. This is in spite of the fact that 80% of the medical expenses are not covered by any reimbursement or insurance scheme and are borne by the patients
